

COVID19

Coronavirus Disease 2019

TIPS FOR KIDS

Sneeze and cough into a tissue and throw it away. If you don't have a tissue, use your elbow.

Wash hands with plenty of soap and water for at least 20 seconds—sing Happy Birthday twice! Wash the palms of hands, back of hands, in between fingers, wrists and don't forget your fingernails. Dry hands when you are done.

Wash hands often

- Before eating
- After playing outside
- After going to the bathroom
- After playing with pets
- After coughing or sneezing

Keep your hands away from your face to help keep germs away.

Wave, give a thumbs up or elbow bump for greetings. Avoid touching others with your hands.
